July 22, 2013

To whom it may concern,

The Oregon-California Trails Association is the leading nonprofit organization in the United States dedicated to preservation and promotion of historic Western trails. We have approximately 2,000 members and have carried out our mission for over thirty years.

I am writing in support of one of our members, Sandor Lau, whose dream it is to make a documentary TV series in which he will walk the Oregon Trail from Missouri to Oregon in the footsteps of the pioneers. At our national convention this year, our board of directors unanimously voted to write this letter of support. Sandor is an award-winning filmmaker and board members were impressed with the quality of footage he has put together and are eager to see more.

Sandor has been a member in good standing since 2011 and we believe his passion, skills and dedication will make this project a success. Members of our organization will be available to provide Sandor historical advice and logistical assistance navigating the trail. We support his efforts and hope you will also.

Respectfully,

Duane Iles

President

Oregon-California Trails Association
